Top International Folk/Blues Band Signs with Straytown

- Harrogate label to represent Dago Red in the UK and On-line

10th April 2008 - Harrogate, UK - Straytown Limited, the independent recording label and studio based in Harrogate, today announced that it has signed top Italian folk/blues band 'Dago Red' on a marketing and distribution deal for the band's forthcoming album and back catalogue.

Straytown will have exclusive rights to sell the band's CDs, and will be handling online sales for the band through iTunes and other download outlets.

Laurie Hopkins, head of Straytown Records said; "Dago Red play fine acoustic and electric blues and have already built quite a following across Europe amongst blues fans. They've received a fair bit of radio play on a BBC regional programmes and radio shows in Italy, so we're absolutely delighted such an internationally well known act has chosen to sign with us."

Dago Red will be playing a mini-tour of England in June including dates in London and North Yorkshire. Dates will be announced shortly, together with dates for the availability of the band's albums and a spectacular animated video.

You can find more information and tour dates for Dago Red at: www.straytown.com

Straytown

About Dago Red

Dago Red is an acoustic folk and blues band from Italy with a style that charms and a sound that warms. The band has an international fan base and has already had airplay on BBC regional radio programmes.

Currently working on their third album, the band's back catalogue will shortly be available from Straytown Records.

About Straytown Limited

Straytown is more than just a recording studio – it can provide everything needed to record, release and sell music; professional studio facilities and recording equipment, mixing and editing services, production, publishing, digital and physical distribution, even promotion and marketing services.

The studio team includes recording engineers, editors and producers and has all the kit and skills needed for professional studio or live sound recording. The label team has everything needed to help sell and promote recordings, and even to gather royalties for radio play.
